

2022 IBIC International Beam Instrumentation Conference

11.09.2022 - 15.09.2022, Kraków, Poland

Grzegorz Kowalski, NSRC SOLARIS, g.kowalski@uj.edu.pl

National Synchrotron Radiation Centre SOLARIS

IBIC 2022 is organized by National synchrotron Radiation Centre SOLARIS in collaboration with GSI Helmholtzzentrum für Schwerionenforschung. SOLARIS is the first and only synchrotron facility in Middle-Eastern Europe. Opened in 2015, initially with two beamlines, now housing 4, with another 4 on the way, the Centre is a key point on Polish science roadmap.

The venue

The conference venue is the Jagiellonian University's Auditorium Maximum.

It's a place well suited to host wide range of events, from lectures and conferences to concerts and festivals.

It's located in the city centre, just a few minutes walk from the Main Square.

It has three large halls with theatre-style seating and three smaller conference rooms. The building's large halls are perfectly suited for poster sessions and coffee breaks.

Kraków itself

Kraków is one of Poland's oldest and most beautiful cities. Dating back to 13th century, the whole city is a showcase of Polish history. As a second largest city in the country it is a hub for Poland's science, technology and culture.
